

PROFESSIONAL EXPERIENCE

Raytheon Technologies

May 2024 – Present

Information Systems Engineer II

- Engineer and support classified test equipment across secure programs and test environments
- Design and test Linux/Windows systems per RMF, STIGs, and IAVA standards for security compliance
- Troubleshoot hardware/software to ensure system uptime and mission readiness in secure networks
- Collaborate with test, flight, and cybersecurity teams to validate availability and compliance
- Use Nessus, Ivanti, Splunk, and Bitbucket to sustain secure test infrastructure performance

BAE Systems

Apr. 2024 – May 2025

Systems Administrator II (Operations - Closed Area Support)

- Managed classified SAP/SAR infrastructure, ensuring RMF, STIG, and Nessus compliance
- Supported Windows, RHEL, and VMware systems in secure, air-gapped environments
- Maintained backup systems using Veeam, Backup Exec, and ML3 for continuity and recovery
- Resolved escalated IT issues with IA teams to reduce audit risk and enhance compliance
- Trained team members and improved SOPs to streamline support across classified programs

Systems Administrator I (Infrastructure – Build Team)

May 2023 – Apr. 2024

- Deployed classified systems end-to-end, including imaging, validation, and secure hand-off
- Authored technical guides to improve build consistency and reduce training overhead
- Aligned assets with network compliance through collaboration with procurement and IA
- Led process changes that improved build accuracy and reduced deployment cycle time

Litchfield School District

Oct 2020 – May 2023

IT Support Engineer/Analyst

- Provided Tier I/II support endpoint management across multiple K-12 school locations
- Managed Active Directory, Google Admin, and network infrastructure for staff and students
- Balanced education needs with IT best practices and coordination between tech and admins

MILITARY SERVICE

United States Marine Corps

Jun 2003 – Jun. 2007

Infantry – Fire Team Leader

- Led tactical teams in high-pressure environments, honing leadership and planning skills
- Applied military discipline to technical roles supporting mission-critical operations

EDUCATION

Southern New Hampshire University

Master of Business Administration, (MBA) in Project Management

Bachelor of Science, (BS) in Information Technology GPA: 4.0

Ongoing

May 2023

CERTIFICATIONS

- CompTIA Security+ CE
- Lean Six Sigma – White Belt
